May'20-May'21

EXPERIENCE

Big Data Center Of Excellence

Delhi, India

MERN Developer

Nov'22-Present

- Helped in the development of the website for the Big Data Center Of Excellence and also a merchandise store for a real client.
- Built the backend for their multiple events , and also contributed in 10+ projects as a MERN developer.
- Structured 15+ project in BDCOE developed expertise in React.js, Context API, Regular Expression, React Hooks, ReactStates ; decreasing website load time by 40% with optimized code and increased page speed score to 90+.
- As primary Backend Developer, made more than 40 APIs following RESTful APIs , and learnt API testing.

PROJECTS

Apna Safar. [view](#)

- A hotel booking website that allows users to search and book hotels and resorts. It works by aggregating listings from multiple hotels and displaying them in one convenient place.
- Implemented Context Api, used react.js for frontend and node.js for backend.

Resume builder. [view](#)

- A website designed to assist job seekers in creating professional and well-structured resumes.
- For this project, used react.js and vite.

UpDriven. [view](#)

- The Carpooling Website, UpDriven is a platform that connects drivers and passengers who are looking to share rides and reduce their carbon footprint.
- For this project , worked in a team of two where the team made backend with node.js and frontend with react.js.

Connectr. [view](#)

- An online platform that enables users to create profiles, connect with other users, and share content such as photos, videos, and messages.
- Implemented Context-API, multer to upload files, react.js for frontend and node.js for backend.

ACHIEVEMENTS

- Contributed for the development of multiple open-source projects in GirlScript Summer of Code'23.
- Took part in several hackathons and took my team to top 10 in NIT, Patna.
