SUMMARY

A third-year computer science student with experience in full-stack web development and a strong foundation in C++ and Javascript. Committed to problem solving and developing high-quality software products with perfection. Willing to work with professionals to gain industry-relevant experience.

EXPERIENCE

Full-Stack Web Developer Big Data Centre of Excellence

Remote, Uttar Pradesh
Nov 2022 - Present

- Developed the official website backend and an administrative dashboard and multiple projects for the college.
- Planned and conducted more than four events, including workshops, hackathons, and coding contests for college students. Each event having 200-300 participants.

Full-Stack Developer Intern Janatig

Remote, Uttar Pradesh
Aug 2023 - Sept 2023

- I actively participated in the projects alongside senior developers, which exposed me to the practical challenges of web development.
- These projects ranged from e-commerce platforms and content management systems to social networking apps. I contributed to the development, debugging, and optimization of these applications

PROJECTS

Estratery - A react based real estate website.

<https://real-estate-xq2e.vercel.app>

- This website offers users a seamless experience to refine property searches based on their preferences, providing dynamic updates for efficient property discovery.
- **Tech Stack:** Nodejs, Reactjs, Expressjs, MongoDB

ApnaSafar -A hotel booking website.

<https://travel-site-1g5u.onrender.com>

- A hotel booking website that allows users to search and book hotels and resorts. It works by aggregating listings from multiple hotels and displaying them in one convenient place.
- **Tech Stack:** Reactjs, Nodejs, Expressjs, MongoDB

Connectr - A browser based social media website.

<https://connectr.onrender.com>

- An online platform that enables users to create profiles, connect with other users, and share content such as photos, videos, and messages.
- **Tech Stack:** Reactjs, Nodejs, Multer, Expressjs, Socket.io, MongoDB

E-Shoppers - A browser based ecommerce website.

<https://ecom-fdtv.onrender.com>

- A website where customers can browse through a variety of products, add items to their shopping cart, and complete transactions securely online.
- **Tech Stack:** Reactjs, Redux, Nodejs, Expressjs, MongoDB
