SUMMARY

A third-year computer science student with experience in full-stack web development and a strong foundation in C++ and Javascript. Committed to problem solving and developing high-quality software products with perfection. Willing to work with professionals to gain industry-relevant experience.

EXPERIENCE

Backend Developer
Big Data Centre of Excellence

Remote, Uttar Pradesh
Nov 2022 - Present

- Developed the official website backend and an administrative dashboard and multiple projects for the college.
- Planned and conducted more than four events, including workshops, hackathons, and coding contests for college students. Each event having 200-300 participants.

Full-Stack Developer Intern
Janatig

Remote, Uttar Pradesh
Aug 2023 - Oct 2023

- I developed proficiency in the MERN stack, gaining hands-on experience in front-end development with React, and back-end development with Node.js and Express.
- I learned the importance of effective teamwork, collaborating with experienced developers, and engaging in problem-solving in a real-world development environment.

PROJECTS

Estratery - A react based real estate website.
https://real-estate-xq2e.vercel.app

- This website offers users a seamless experience to refine property searches based on their preferences, providing dynamic updates for efficient property discovery.
- **Tech Stack:** Nodejs, Reactjs, Expressjs, MongoDB

ApnaSafar -A hotel booking website.
https://travel-site-lg5u.onrender.com

- A hotel booking website that allows users to search and book hotels and resorts. It works by aggregating listings from multiple hotels and displaying them in one convenient place.
- **Tech Stack:** Reactjs, Nodejs, Expressjs, MongoDB

UpDriven - A Carpooling website.
https://updriven.onrender.com

- A platform that connects drivers and passengers who are looking to share rides and reduce their carbon footprint. It aims to provide a convenient and sustainable solution for transportation by facilitating carpooling arrangements.
- **Tech Stack:** Reactjs, Nodejs, Expressjs, MongoDB

E-Shoppers - A browser based ecommerce website.
https://ecom-fdtv.onrender.com

- A website where customers can browse through a variety of products, add items to their shopping cart, and complete transactions securely online.
- **Tech Stack:** Reactjs, Redux, Nodejs, Expressjs, MongoDB
